

December 17, 2010

Dear Valued Customer:

This letter is to inform you that recycling and disposal rates at the Shoreway Recycling and Disposal Center will change effective January 1, 2011 on the below mentioned materials. The rate adjustments were approved by the Board of Directors of the South Bayside Waste Management Authority (SBWMA) on November 18th, 2010. The rate adjustments are being enacted to reflect changes in the cost of handling and disposing of materials delivered to the Shoreway Environmental Center.

Increase on waste disposal rates by \$5.00 per cubic yard from \$35.00 to \$40.00 per cubic yard.

Increase on plant material and wood recycling rates by \$4.00 per cubic yard from \$25.00 to \$29.00 per cubic yard

Increase on construction and demolition (C&D) materials rates by \$1.00 per cubic yard from \$28.00 to \$29.00 per cubic yard.

The new rate schedule is presented on the reverse side and will be effective January 1, 2011.

The SBWMA, a Joint Powers Authority composed of 10 peninsula cities, unincorporated portions of San Mateo County and a sanitary district, owns the Shoreway Environmental Center which includes the Transfer Station and the Materials Recovery Facility. The facility is currently operated by Allied Waste of San Mateo County on the SBWMA's behalf. On January 1st, South Bay Recycling (SBR) will replace Allied Waste as the operator of the Shoreway Environmental Center.

Please visit our website at www.RethinkWaste.org for information about the new facility operator and for an update on our construction activities. If you have any questions regarding these rate adjustments, please contact our offices at 650-802-3500.

Thank you for your business.

Sincerely,

SOUTH BAYSIDE WASTE MANAGEMENT AUTHORITY

Shoreway Environmental Center
